HARBOR FOOD SHOW 2025

WELCOME GAME CHANGERS!

Welcome to the 2025 Food Show, hosted by Harbor Foodservice. We are a family-owned, locally rooted company serving the Northwest with dedication and pride for four generations. Now in our 102nd year, this show is more than an event; it's a showcase of the innovations, bold ideas, and transformative products that are changing the way our industry thrives.

As you explore the show floor, you'll connect with the game changers themselves. They are the farmers, growers, chefs, manufacturers, producers, brokers, industry leaders, and fellow restaurateurs, each bringing fresh perspectives and groundbreaking solutions to the table. From trend-setting flavors to cutting-edge technology, every stop reveals the people and products driving the next era of foodservice.

At Harbor, our passion goes beyond distribution; it's about empowering our partners with the tools and connections to lead in a changing marketplace. This show reflects our commitment to championing innovation while honoring the traditions that make our Northwest community unique.

Join us in celebrating the movers, the makers, and the innovators who are shaping what's next. Together, we're not just participating in the foodservice industry, we're redefining it. Because when game changers come together, the future of food happens here.

Life happens around the table. We'll help you set it.

SEMINAR

Restaurants + AI: Adapting into a Changing Industry

With Andy Cook

9 - 10am ~ September 24

Independent operators are beginning to share their first experiences with AI. Their early adoption stories highlight both the challenges and the wins. In this keynote, Andy Cook, Harbor Foods' Operations Advisor and Foodservice Technology Specialist, draws on those peer examples while demonstrating how to prepare and onboard AI tools, such as ChatGPT, so they can act as a personal executive support team. You'll walk away with practical steps for making AI reflect your priorities, amplify your instincts, and help you adapt with confidence to the accelerated changes reshaping our industry.

HOW TO PLACE AN ORDER

Our Food Show digital ordering process makes buying easy and efficient. Each vendor booth is equipped with iPads containing your order history and a record of your regular purchases. This streamlined approach saves you valuable time to explore the floor, discover new products and trends, sample what's fresh, or attend a presentation.

RAFFLES & PRIZES

Get ready for a day packed with energy, prizes, and plenty of surprises at the Harbor Food Show! Not only will you discover the latest and greatest products from your favorite vendors, but you'll also have the chance to walk away with amazing prizes and giveaways. Throughout the show, vendors will be hosting their own raffles, drawings, and special promotions, some even handing out exclusive goodies just for stopping by their booth. It's your chance to mingle, explore, and maybe score a prize (or two!) while stocking up on fresh ideas for your business.

And that's not all. Harbor is bringing the excitement center stage with our very own **"Spin-to-Win" Price is Right**-style game! Here's how it works: grab a game card, visit select vendor booths to collect stamps, then bring your completed card to the Harbor Exclusives area. There, you'll get your chance to spin the giant prize wheel and win big! From gift cards and Harbor swag to special vendor prizes and more, every spin is a shot at something fun and rewarding.

This year's show is more than just food—it's an interactive experience filled with flavor, fun, and opportunities at every turn. Don't miss out on the chance to learn, connect, taste, and WIN.

IMPORT & SPECIALTY ITEMS

Don't miss our specialty products section in Booths 221, 223, 320 and 322, featuring a wide selection of imported and distinctive items ideal for both special occasions and everyday menu inspiration. Discover rare cheeses, premium meats, and handcrafted charcuterie, along with an array of global olives, oils, and spices—all curated to satisfy diverse culinary styles and tastes.
