**You & Your Restaurant in the
Emerging AI Age
With Andy Cook**

September 24
9 - 10am

Convention Center 4th Floor

Restaurants + AI: You & Your Restaurant in the Emerging AI Age

With Andy Cook
Harbor Restaurant Consultant

9 - 10am

For years, the rate of change has outpaced our capacity to adapt. Regulations, workforce, technology, consumer habits, and more are all evolving faster than independent operators can manage alone. While chains have teams of specialist, you've been shouldering this complexity.

We're entering the AI age. Independent operators are sharing their early adoption experiences, both challenges and wins. Andy Cook demonstrates how to responsibly onboard AI tools like ChatGPT as your executive support team, drawing from real peer stories. You'll walk away with practical steps for AI adoption that amplifies your instincts, reflects your priorities, and helps you lead your team confidently through this transformation.

Don't just adapt to the AI age. Shape your future in it.
