YAKAMA NATION FARMS

Yakama Nation Farms (YNF) is an agricultural enterprise owned and operated by the Confederated Tribes and Bands of the Yakama Nation. They are committed to being a steward of their community and fostering the development of the tribe's agricultural resources and capacity. Recently, YNF purchased Inaba Produce, a long-acclaimed grower in Wapato, WA. This sale expanded Yakama Nation's farming area to 1600 acres. YNF is known for organic and conventionally corn, melons, peppers, tomatoes, and more. They also pack for Charlie's Farmer's Own organic brand and our Yumi brand.
